1. Identification

1.1. Product identifier

Trade name: AEROSIL® COK 84

1.2. Recommended use of the chemical and restrictions on use

Relevant applications identified:
- Agricultural products
- Adhesive
- Personal care
- Paints and varnishes
- Dispersing agent

1.3. Details of the supplier of the safety data sheet

Company: Evonik Corporation USA
299 Jefferson Road
Parsippany, NJ 07054-0677
USA

Telephone: 973-929-8000
Telefax: 973-929-8040
E-mail address: Product-Regulatory-Services@Evonik.com

1.4. 24 HOUR EMERGENCY TELEPHONE NUMBERS:

CHEMTREC - US & CANADA: 800-424-9300
CHEMTREC MEXICO: 01-800-681-9531
CHEMTREC INTERNATIONAL: +1 703-527-3887 (collect calls accepted)
Product Regulatory Services: 973-929-8060

2. Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation 29CFR 1910.1200
Remarks: Not a hazardous substance or mixture.

2.2. Label elements

Statutory basis: Classification according to Regulation 29CFR 1910.1200
Remarks: Not a hazardous substance or mixture.

2.3. Other hazards

None known

3. Composition/information on ingredients
3.1. Substances not applicable

3.2. Mixtures

- Silicon dioxide, chemically prepared
  
  **CAS-No.** 112945-52-5
  
  **Remarks** Not a hazardous substance or mixture.

- Aluminium oxide
  
  **CAS-No.** 1344-28-1
  
  **Remarks** Not a hazardous substance or mixture.

**Other information**

A new CAS, 112945-52-5, has been assigned to amorphous, fumed silica to distinguish it from crystalline silica. According to the EPA, this product meets TSCA requirements and is listed on the TSCA inventory as silica with CAS 7631-86-9.

4. First aid measures

4.1. Description of first aid measures

**Inhalation**

In case product dust is released: Possible discomfort: cough, sneezing

Move victims into fresh air.

**Skin contact**

Wash off with soap and plenty of water.

**Eye contact**

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes or until all material has been removed. Obtain medical attention.

**Ingestion**

If accidentally swallowed, rinse mouth thoroughly with water and afterwards, drink plenty of water. In case of discomfort, obtain medical attention.

4.2. Most important symptoms and effects, both acute and delayed

**Symptoms**

None known.

4.3. Indication of any immediate medical attention and special treatment needed

No hazards which require special first aid measures.

5. Fire-fighting measures

5.1. Extinguishing media

- **Suitable extinguishing media:** Water spray, foam, CO2, dry powder., Adapt fire-extinguishing measures to surroundings

- **Unsuitable extinguishing media:** Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture

None known.

5.3. Advice for firefighters

As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.
6. **Accidental release measures**

6.1. **Personal precautions, protective equipment and emergency procedures**  
Wear personal protective equipment.

6.2. **Environmental precautions**  
Obey relevant local, state, provincial and federal laws and regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.

6.3. **Methods and material for containment and cleaning up**  
Sweep up or vacuum up spillage and collect in suitable container for disposal.

7. **Handling and storage**

7.1. **Precautions for safe handling**  
Use with adequate ventilation.

7.2. **Conditions for safe storage, including any incompatibilities**

   **Advice on protection against fire and explosion**  
   Take precautionary measures against static discharges.

   **Storage**  
   Keep containers tightly closed in a dry, cool place.

8. **Exposure controls/personal protection**

8.1. **Control parameters**

   **Silicon dioxide, chemically prepared**

8.2. Exposure controls

Personal protective equipment

Respiratory protection
A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 or applicable federal/provincial requirements must be followed whenever workplace conditions warrant respirator use. NIOSH's "Respirator Decision Logic" may be useful in determining the suitability of various types of respirators.

Hand protection
Use impermeable gloves.

Eye protection
Wear safety glasses with side shields. In case dusts are formed, wear close fitting protective goggles.

Skin and body protection
A safety shower and eye wash fountain should be readily available. To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

Hygiene measures
When using, do not eat, drink or smoke. Wash face and/or hands before break and end of work. To ensure ideal skin protection: use super fatted soaps and skin cream for skin care. Wash contaminated clothing before re-use.

Protective measures
Handle in accordance with good industrial hygiene and safety practice. If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. If the workplace threshold limit value is exceeded and/or the substance is released, use appropriate respiratory protection.

9. Physical and chemical properties

9.2. Other information

Explosiveness not to be expected, given the composition employed

Minimum ignition energy not applicable

Tapped density ca. 50 g / l
Method: DIN / ISO 787/11

10. Stability and reactivity

10.1. Reactivity
No dangerous reaction known under conditions of normal use.

10.2. Chemical stability
Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions
Possibility of hazardous reactions See Sect. 10.1 Reactivity.

10.4. Conditions to avoid
Operations that create dust.

10.5. Incompatible materials
No further information available

10.6. Hazardous decomposition products
None known.

Stable under normal conditions.
Product will not undergo hazardous polymerization.

11. Toxicological information
11.1. Information on toxicological effects

No toxicological tests are available on the product.

Acute oral toxicity

Acute toxicity estimate: > 5000 mg/kg

LD50 Rat: > 5000 mg/kg
Test substance: Silicon dioxide, derived from chemical synthesis

LD50 Rat: > 5000 mg/kg
Test substance: aluminium oxide

Method: OECD Test Guideline 401

Acute inhalation toxicity

LC0 Rat: 0.139 mg/l / 4 h
Test substance: Silicon dioxide, derived from chemical synthesis (maximum concentration attainable in experiments)
No deaths occurred.

Acute dermal toxicity

LD50 Rabbit: > 5000 mg/kg
Test substance: Silicon dioxide, derived from chemical synthesis

Skin irritation

Rabbit
Not irritating.

Method: literature

Eye irritation

Rabbit
Not irritating.

Method: literature

Sensitization

not known

Repeated dose toxicity

Oral
No negative effects.

Inhalation
No irreversible changes and no indication of silicosis.

Genticity in vivo

No evidence of mutagenic effects reported in literature.
Related to substance: silica

Mutagenicity assessment

No evidence of mutagenic effects reported in literature.

Carcinogenicity

No negative effects.
Related to substance: silica

Toxicity to reproduction

No negative effects.

Human experience

Silicosis or other product specific illnesses of the respiratory tract have not been reported.

12. Ecological information
12.1.  Toxicity

*No ecotoxicological data is available for this product.*

**Toxicity to fish**

<table>
<thead>
<tr>
<th>Test substance</th>
<th>Method</th>
<th>LC50 (Brachydanio rerio): &gt; 10000 mg/l / 96 h</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

**Test substance**: aluminium oxide

12.2. Persistence and degradability

**Biodegradability**

The methods for determining biodegradability are not applicable to inorganic substances.

12.3. Bioaccumulative potential

**Bioaccumulation**

Not to be expected.

12.4. Mobility in soil

**Mobility**

No remarkable mobility in soil is to be expected.

12.5. Other adverse effects

**Further Information**

The data we have at our disposal do not necessitate identification concerning environmental hazard.

13. Disposal considerations

13.1. Waste treatment methods

**Product**

Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method.

**Uncleaned packaging**

Packaging material should be recycled or disposed of in accordance with federal, state and local regulations.
14. Transport information

Not dangerous according to transport regulations.

14.1. UN number: --
14.2. UN proper shipping name: --
14.3. Transport hazard class(es): --
14.4. Packing group: --
14.5. Environmental hazards (Marine pollutant): --
14.6. Special precautions for user: Yes
   Not dangerous according to transport regulations.

15. Regulatory information

US Federal Regulations

OSHA
   If listed below, chemical specific standards apply to the product or components:
   • None listed

Clean Air Act Section (112)
   If listed below, components present at or above the de minimus level are hazardous air pollutants:
   • None listed

CERCLA Reportable Quantities
   If listed below, a reportable quantity (RQ) applies to the product based on the percent of the named component:
   • None listed

SARA Title III Section 311/312 Hazard Categories
   The product meets the criteria only for the listed hazard classes:
   • No SARA Hazards

SARA Title III Section 313 Reportable Substances
   If listed below, components are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
   • None listed

Toxic Substances Control Act (TSCA)
   If listed below, non-proprietary substances are subject to export notification under Section 12 (b) of TSCA:
   • None listed
Other US Federal Regulatory Information

OSHA regulations require this product to be listed as hazardous in a Material Safety Data Sheet due to its listed TLV values. However, according to the Documentation of Threshold Limit Values and Biological Exposure indices, 6th edition, last revised in 1991: "The experimental and clinical data indicate that aluminum oxide acts as an "inert" material when inhaled and seems to have little effect on the lungs nor does it produce significant organic diseases or toxic effect when exposures are kept under reasonable control."

State Regulations

California Proposition 65

A warning under the California Drinking Water Act is required only if listed below:

- None listed

An employer using HMIS/NFPA labeling must through training ensure that its employees are fully aware of the hazards of the chemicals used.
