

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Date: January 29, 2025

PRODUCT NAME: PCF 200AG

TYPE: Non-leafing aluminum flake: Polymer coated

PRODUCT SPECIFICATION

Characteristics	Typical value		Unit	Test Method
Non-volatile content	99.0	Min	%	by Weight
	100.0	Max		
Screen analysis >45 μ	1.00	Max	%	Wet screen
Color	In accordance with our standard			Drawdown

INDICATIVE VALUES

Characteristics	Typical value		Unit	Test Method
Volatile content	1.0	Max	%	by Weight
Solvent composition	Mineral spirit and high aromatic solvent			
Non-volatile composition	Aluminum flake, fatty acid, and polymer coating			
Average particle size	40.0		μ m	Microtrac
Specific gravity	2.70		g/cm ³	by calculation

SHELF LIFE

2 years from production date

ASSOCIATED SAFETY DATA SHEET

Refer to safety data sheet - MSDS code: TA-400

The data given in this technical data sheet are in accordance with the current status of our knowledge and experience. Technical details and information on our products are given as technical quality description and do not imply guaranteed properties in the legal sense. We reserve the right to modify any product data as a result of technical progress or new developments in the manufacturing process.
