

Baerostab TX 93708 P

Description Low-dusting pastille-shaped co-stabilized lubricant blend.

Properties	Test	Typical Property
	Total Ash	1.5 %
	Loss of Drying	0.15 %
	FTIR Confirmation	To Pass Test

Applications Baerostab TX 93708 P is a solid lubricant for use in rigid PVC applications. TX 93708 P is generally available in pastille form with excellent handling and feeding characteristics and is especially suited for ease of blending and compounding with resin, filler and other additive components of thermoplastic formulations.

Baerostab TX 93708 P is considered a balanced internal/external lubricant in PVC that provides excellent metal release. In rigid extruded sheets and extruded rigid profiles, it reduced tackiness and controls plate-out while ensuring a smooth semi-glossy surface. It is compatible with PVC and all relating additives in the formulation.

Dosage General dosage is recommended to start from 1.0-1.3 PHR depending on application

Quality control A state-of-the-art plant process with strict control ensures consistent quality in chemical and physical properties.

Packaging Standard bulk packaging in supersacks and palletized multi-wall paper and poly bags are available.

Storage Store in dry areas at normal ambient temperatures is recommended. Open containers of unused product should be firmly closed for storage.
