# 4. FIRST AID MEASURES

#### **Description of first aid measures**

General advice • Show this safety data sheet to the doctor in attendance

• Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower Eye contact

and upper eyelids. Consult a physician

Skin contact Wash skin with soap and water

Inhalation Remove to fresh air **Ingestion** 

• Clean mouth with water and drink afterwards plenty of water

## Most important symptoms and effects, both acute and delayed

**Symptoms** 

• No information available

## Indication of any immediate medical attention and special treatment needed

Note to physicians

• Treat symptomatically

# 5. FIRE-FIGHTING MEASURES

## **Extinguishing media**

**Suitable Extinguishing Media** 

• CO2, dry chemical, dry sand, alcohol-resistant foam

Unsuitable extinguishing media

• Caution: Use of water spray when fighting fire may

be inefficient

Specific hazards arising from the chemical

• No information available

**Hazardous combustion products** 

• Thermal decomposition and burning may produce carbon monoxide, carbon dioxide, nitrogen oxides,

and other toxic compounds.

#### **Explosion data**

Sensitivity to Mechanical Impact Sensitivity to Static Discharge

• None

• None

**Special protective equipment for fire-fighters** 

• Wear self-contained breathing apparatus and

protective suit

# 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures

**Personal precautions** 

• Ensure adequate ventilation

#### Methods and material for containment and cleaning up

**Methods for containment** 

• Prevent further leakage or spillage if safe to do so

Methods for cleaning up

• Pick up and transfer to properly labeled containers

Prevention of secondary hazards

• Clean contaminated objects and areas thoroughly observing environmental regulations

Reference to other sections

• See Section 12 for additional Ecological Information

# 7. HANDLING AND STORAGE

## Precautions for safe handling

Advice on safe handling

- Handle in accordance with good industrial hygiene and safety practice
- Avoid contact with skin, eyes or clothing
- Do not eat, drink or smoke when using this product
- Remove contaminated clothing and shoes

## **Conditions for safe storage, including any incompatibilities**

**Storage Conditions** 

Store locked up

**Incompatible materials** 

None known based on information supplied

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

## **Exposure Limits**

The following ingredients are the only ingredients of the product above the cut-off level (or level that contributes to the hazard classification of the mixture) which have an exposure limit applicable in the region for which this safety data sheet is intended or other recommended limit. At this time, the other relevant constituents have no known exposure limits from the sources listed here

## Individual protection measures, such as personal protective equipment

General hygiene • Do not eat, drink or smoke when using this product

• Wash hands before breaks and immediately after handling the product

• Wear safety glasses with side shields (or goggles)

**Hand protection** • Wear suitable gloves

**Skin and body protection** • Wear suitable protective clothing

**Respiratory protection** • When workers are facing concentrations above the exposure limit they

must use appropriate certified respirators

#### Other information

This product has not been reviewed for carcinogenicity by IARC, NTP or OSHA. It contains carbon black, which is considered hazardous, and for which exposure limits have been established. IARC classifies carbon black as a category 2B carcinogen (known animal carcinogen, possible human carcinogen) based on inhalation studies with animals. At this time neither NTP nor OSHA has classified carbon black as a carcinogen. All of the hazards attributed to carbon black relate to inhalation of respirable size particles when it is in its powdered form. Our products, in the form provided (liquid, paste, or pellets), do not contain carbon black in a powder form, and it is not expected that carbon black particles of respirable size would be generated during normal use of this product. For additional information, see **Section 15.** 

This product has not been reviewed for carcinogenicity by IARC, NTP, OSHA or ACGIH. It contains titanium dioxide which is not listed as a carcinogen by NTP, OSHA, or ACGIH. However, in 2006, IARC released Monograph Vol. 93 in which it reclassified titanium dioxide from not classifiable as to its carcinogenicity to humans (Group 3) to possibly carcinogenic to humans (Group 2B). The reclassification was based on two studies in which rats were exposed to extremely high concentrations of titanium dioxide pigment powders in a closed chamber for extended periods of time. It is important to note that the results of epidemiology studies which evaluated more than 20,000 titanium dioxide industry workers in Europe and the US did NOT suggest a carcinogenic effect from titanium dioxide dust on the human lung or mortality from other chronic diseases including respiratory diseases not associated with titanium dioxide dust. Based upon the results of these studies, the pigment manufacturer(s) conclude that TiO2 will not cause lung cancer or chronic respiratory disease in humans at concentrations experienced in the workplace. ## **US Federal Regulations:**

#### **CWA (Clean Water Act):**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

#### **CERCLA:**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

#### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

## SARA 311/312 Hazard Categories:

Acute health hazard	No
Chronic Health Hazard	Yes
Fire hazard	No
Sudden release of pressure hazard	No
Reactive Hazard	No

## **US State Regulations:**

#### **California Proposition 65:**

This product contains the following Proposition 65 chemicals

Chemical name	California Proposition 65
Titanium Dioxide 13463-67-7	Carcinogen
Carbon Black 1333-86-4	Carcinogen

#### Note:

- 1.) The listing of carbon black in the CA PROP 65 REGULATION specifically pertains to airborne, unbound, carbon black particles of respirable size, meaning that all three criteria must be met before carbon black would be considered a carcinogen according to the requirements of CA PROP 65. Our products, in the form provided (liquid, paste or pellets), do not contain carbon black in a powder form, and it is not expected that carbon black particles of respirable size would be generated during normal use of this product. For additional information, see **Section 11.**
- 2.) The listing of titanium dioxide in the CA PROP 65 REGULATION specifically pertains to airborne, unbound, titanium dioxide particles of respirable size, meaning that all three criteria must be met before titanium dioxide would be considered a carcinogen according to the requirements of CA PROP 65. Our products, in the form provided (liquid, paste or pellets), do not contain titanium dioxide in a powder form, and it is not expected that titanium dioxide particles of respirable size would be generated during normal use of this product. For additional information, see **Section 11.**

This product may contain trace levels of metal impurities that are on the California Proposition 65 list. This product may also contain other substances on the California Prop 65 list at levels below 1000 ppm. For some of these substances, their listings are qualified as specifically relating to airborne, unbound particles of respirable size. If additional information is needed please send a request to msds@penncolor.com.
